Code of Ethics
The Two Best Elements

You should each have brought a document that has four (4) elements that you want to see in a code of ethics (or conduct) for any business you are associated with. I would like you to share these with your group. Then I would like you to come to a group consensus on which is the "best" or "most important" one. I also want the "second best."

So when you are all done, each group should have two (2) elements of a code of ethics. Each group will present their best two and give the basic reasoning on why they are the "best."

Please (legibly) write those best two on the lines below.
